Rez Baylon C. Buidon

Baguio City, Philippines | 095654559092 | rezbaylon@gmail.com

CAREER OBJECTIVE

Motivated and detail-oriented Bachelor of Science in Information Technology graduate seeking an opportunity as a Web Developer. Possesses a strong foundation in web development, programming, database management, and problem-solving. Eager to apply technical knowledge, develop practical skills, and contribute to creating efficient and user-friendly web solutions.

EDUCATION

Bachelor of Science in Information Technology (BSIT)

STI College Baguio | Graduated: 2026

KEY SKILLS

- **Programming Languages:** C#, Python, Java, JavaScript
- **Web Development:** HTML5, CSS3, React.js, ASP.NET Core, Responsive Web Design
- **Database Management:** MySQL, SQL Queries, Database Design, CRUD Operations
- **Development Tools:** Visual Studio, Visual Studio Code, Git, GitHub
- **Software Testing:** Functional Testing, Cross-Device Compatibility Testing, Bug Identification and Debugging
- **Technical Competencies:** REST API Integration, User Authentication, Version Control, NLP Model Integration
- **Professional Skills:** Analytical Problem-Solving, Technical Documentation, Team Collaboration, Task Prioritization

ACADEMIC PROJECTS & HIGHLIGHTS

Capstone Project: NLP-Based Translation and Language Learning Web Application

Role: Developer / Researcher

- Integrated MySQL database functionality to securely manage user accounts, system information, and stored records, ensuring organized, reliable, and efficient data retrieval and management throughout the application.
- Developed a responsive web application using modern development practices and framework standards, implementing a structured and user-friendly interface that adapts effectively to different screen sizes and device types.
- Conducted comprehensive system testing and evaluation to assess functionality, performance, usability, and responsiveness, identifying and resolving issues to provide a reliable and intuitive user experience across both desktop and mobile devices.
- Applied Git and GitHub for version control and collaborative development, maintaining organized source code, tracking changes, managing development iterations, and supporting efficient team coordination throughout the software development lifecycle.
